PREMIUM SUSPENSION UPGRADE

FOR MOTORHOMES AND VANS

ACS

AL-KO COMFORT SUSPENSION

The AL-KO Comfort Suspension (ACS) for Fiat front axle Motorhome and Vans makes driving both safer and more convenient - simply more driving pleasure.

Both the shock absorbers and coil springs are particularly suited to the high front axle loads of Motorhomes. The enhanced performance minimizes harsh bumps and road feedback through the vehicle for a smoother ride for you and less strain on your vehicle body and fixtures.

- Swap in & out component recognized by the OE and retains vehicle warranty.
- Linear rate springs with longer travel suspension and optimised shock absorber provides enhanced handling.
- Better lateral stability provides greater safety and comfort.
- Improved road and driving feel due to faster and more responsive steering.
- Improves ride height and enhances the floor level for a better living experience.
- Specifically designed for the constant high load requirements of Motorhomes and Vans.
- Raises front ride height by 40mm - 30mm.
- Increase front axle capacity from 2100 kg to 2300 kg.

INSIST ON PREMIUM RIDE PERFORMANCE FOR YOUR JOURNEY.
