

WATER TANK ONLY

7WT62LT

Ref. 680150

AL-KO 62 Litre Fresh Water Tank.

Blow moulded from food grade, high density polyethylene in Australia ensures the structural integrity required for harsh Australian conditions when touring. Ensuring water quality is not compromised with corrosion or contaminants.

All AL-KO water tanks are supported with a range of fittings and can be network configured to meet your needs.

- | AL-KO water tanks are non toxic and suitable for drinking water.
- | Bracket location and retention built into design
- | Double baffle design to minimise slosh effect
- | Supported with a range of purpose made fittings for water tight connection to popular hose sizes.
- | Easy to install with the AL-KO bracket kit
- | Australian made
- | Can be purchased as a kit for a complete solution.
